

Joint meeting IPNO-LAL LUA9-AFTER

mercredi 20 novembre 2013

More on bent-crystals / B-Physics - Salle 101 (09:00 - 12:15)

time	[id] title	presenter
09:15	[10] Special features of electrodynamics processes at ultra high energy in crystalline and amorphous targets	FOMIN, Sergii
09:45	[26] Spectral-angular distribution and polarization of radiation by ultra high energy charged particles in thin crystalline and amorphous targets	FOMIN, Oleksiy
10:15	[27] Discussions	
10:45	Coffee break	
11:15	[28] Highlights and prospects for B-physics studies with LHCb	ROBBE, Patrick
11:45	[14] Flavour physics with AFTER@LHC
