

Session Program

18-20 nov. 2013

Joint meeting IPNO-LAL LUA9-AFTER

Bent-crystal beam collimation: prospects

Orsay, IPN (Monday-Tuesday) - LAL (Wednesday)

mar. 19 novembre

08:55

Bent-crystal beam collimation: prospects

Session | Site: IPN Orsay, Salle des conseils (Building 100)

09:00 – 09:30

Mechanisms of high-energy beam deflation by bent crystal**Orateur**

Mykola Shul'ga

09:30 – 10:00

Dynamics of high-energy charged particles in a crystal**Orateur**

Igor Kirillin

10:00 – 10:40

RD22: a pilot test for crystal-assisted extraction in hadron colliders.**Orateur**

Walter Scandale

10:40 – 11:10

Coffee break

11:10 – 11:50

UA9 status and results and its extension to the LHC**Orateur**

Simone Montesano

11:50 – 12:30

Round table

12:30
