

Gamma-Ray Bursts in the Multi-messenger Era

mercredi 18 juin 2014

Neutrinos - IPGP : Salle des séminaires (11:35 - 15:45)

time	[id] title	presenter
11:35	[112] Neutrino Detection Techniques	Dr KOUCHNER, Antoine Kouchner
12:20	[113] Searches for Neutrinos from Gamma-Ray Bursts with the ANTARES Neutrino Telescope	SCHMID, Julia
12:40	Lunch break	
14:00	[114] High Energy Neutrinos and GRBs	Dr TABOADA, Ignacio
14:45	[115] Follow-up of high energy neutrinos detected by the ANTARES telescope	MATHIEU, Aurore
15:05	[116] Searches for coincident High Energy Neutrinos and Gravitational Wave Bursts using the ANTARES and Virgo/LIGO detectors	M. PRADIER, Thierry
15:25	[117] Theme Discussion lead by B. Baret	Dr BARET, Bruny
